# After School Theater

Welcome to the world of theater wherein you can try on personalities of all types; learn the art of improvisation; and take part in weekly skits, with a finale of a full-cast performance on stage. Each week will focus on different opportunities to learn skills that actors use in performing: theatrical emotions, stage directions, prop preparation, line memorization to name a few. Students in grades 4-8 are welcome in this theatrical group. Prior stage experience is not necessary, as everyone will have stage experience by the end of the 12-week session.
