

The After School Programs of Honey Creek Community School present
BASKETBALL CLINICS ON TUESDAYS

FOUNDATIONS OF BASKETBALL (Grades 1st-3rd - January 22nd-February 12th): Basketball is an amazing sport that incorporates valuable teamwork and individual skills. In this introductory session for beginners, we will introduce the roles and rules; teach fundamental individual skills; and practice teamwork. With different games and drills, we hope to create a fun and enthusiastic environment that challenges students at all levels.

FUNDAMENTALS OF BASKETBALL (Grades 4th-8th - February 19th-March 19th): These intense sessions really seek to improve the individual as well as team skills required for success. Each session will build upon each other, which include both individual skills as well as executing offensive and defensive plays, with the goal of building strong team play. From beginners to professionals, we encourage those who are willing to invest the time and effort to become sound basketball players.

MEET THE INSTRUCTORS: Jon Baek, the middle school science teacher, is an avid fan and “baller” since his own middle school days. In college, Jon spent many hours crafting and honing his game, as well as building valuable team experiences playing with all sorts of styles of offense/defense. While he is a “student” of the game, he is always a passionate fan of it as well. Jon considers John Beilein, Jim Boenheim, and Larry Brown as the coaches who have most influenced his appreciation for the game. Like those role models, Jon appreciates intensity/passion for the game, integrity in sportsmanship, and intelligence through strategic game play.

Joe Griffith is Honey Creek’s middle school social studies teacher. Although his basketball playing career may have peaked in sixth grade playing for the Goodrich Martians, his coaching career has no ceiling. This will be his fourth year running the clinic with Jon and he's excited to help Honey Creek students enjoy the sport and develop the fundamentals of basketball.
