

The After School Programs of Honey Creek Community School present

Theatre Tech Crew

DESCRIPTION: We are looking for our tech team. Students will learn about what goes into the behind the scenes of putting on a theater performance and become our tech crew for the spring play. Students will be divided into the main categories (sound/lighting, costumes, props, and publicity) that they will learn about and be asked to perform those duties during the rehearsals and performances. This season's play is very costume and make-up heavy with less to do on stage. Students will need to be able to be open minded on their assignments and focused on the end result... the performance.

MEET THE INSTRUCTOR: Heidi Ellis has a masters degree from Eastern Michigan University in Costume Design and Construction where she helped teach the undergraduate students while helping to build the theater productions. She worked for 11 years at the Henry Ford as a supervisor in the costume shop where she trained the new employees and made clothing.
