# Virtual Wonders

**DESCRIPTION:** Would you like to design a game where the building and characters can appear in your own room, or create an escape room in a virtual world? In this class we're going to learn to create 3D, Augmented and Virtual Reality games using CoSpaces, a block-based programming environment. We'll also add in some Makey Makeys for extra fun. Go to <https://edu.cospaces.io> to see examples. Students should bring their own snacks.

**ABOUT THE INSTRUCTORS:** **Jennifer Schank** is an Ann Arbor school OT who integrates simple technology and games into her sessions. She teaches design and technology classes for therapists and students. She collaborates on her therapeutic game creations with her sons **Alex** and **Aiden** who program many of them. They will be instructing their own block of classes. Here's an example of a therapeutic game we made together <http://bit.ly/2SB2Vi1>.

**WHEN:** WEDNESDAYS until 4:30pm from March 20th through May 8th, 2019.

**WHERE:** C10

**WHO:** Students in grades 4th-6th. Maximum of 14.

**COST:** \$70.00 per student for the 7-week session. Each participant will get access to CoSpaces and Merge Cube programming for 4 months. **Make checks payable to "HCCS."**

**ANY QUESTIONS:** Contact Jennifer at [jenniferss@gmail.com](mailto:jenniferss@gmail.com)

**CHECK HERE if you would like this registration to officially change your regularly scheduled after care on Wednesdays to VW instead. This change will become effective on March 20th IF RECEIVED BY 03/14/2019.**

Space is limited. All registration forms must be completed and returned to the After School "IN BOX" prior to your first session.
