

Honey Creek Nature Explorers

Join us as we play and explore the natural areas
around our school.

Kids collaborate to plan our time together. Play games,
build forts, tell stories, find animals and their tracks, nature
crafts and wood carving.

Learn about nature with two experienced outdoor
educators/naturalists and ask big questions...
Where do beetles go in the winter? What is beautiful to
us? How many shades of green are there in the forest?

What is the history of this land?
What will it be like 1000 years from now?
Class includes a fruit snack and ends with
gratitudes and tea.

Natural area next to Honey Creek School
Ages 6-12

Jr. Asst Opportunities for 13+
Thursdays 3:30-5:00pm

Oct 3rd - Nov 21st (No Class Oct 31)

Cost: \$210 for the session

8 student minimum for class to proceed
